RE: Roosevelt Irrigation District
Feasibility Study Work Plan

Dear Mr. Neese:

The Arizona Department of Environmental Quality Remedial Projects Unit is in receipt of Roosevelt Irrigation District's (RID) response to comments letter dated June 21, 2013 and a revised *Feasibility Study Work Plan - Regional Groundwater Remedy Evaluation*, dated June 2013, as prepared by Synergy Environmental, LLC on behalf of RID. The feasibility study (FS) work plan was prepared for the West Van Buren Area Water Quality Assurance Revolving Fund Registry Site and was revised based on public comments received May 6, 2013.

The Department, after considering the public comments and RID's response, approves the revised FS work plan based on the work plan's substantial compliance with Arizona Administrative Code (A.A.C.) R18-16-407, pursuant to A.A.C. R18-16-413(E). As requested in the FS work plan, the Department anticipates that RID will schedule a meeting to discuss the scoping of the FS and the approach to address the evaluation of risk as provided in A.A.C. R18-16-407(H)3(b).

If you have any questions or need additional information, please contact me at (602) 771-4293 or by email at lepage.tina@azdeq.gov.

Sincerely,

Tina L. LePage, Manager
Remedial Projects Section
Arizona Department of Environmental Quality
